# Tokenizing Crowd Funding & New Technologies

**A Unique Crowd Funding Structure**  
that benefits both the projects and funders.

# Our Motivation

The ONE SMALL TOWN initiative has access to a growing number of leading technologies that will revolutionise many sectors of society.

OST is embarking on a groundbreaking crowd funding campaign to finance the research, development, and deployment of a basket of such technologies, promising to enhance sustainability, efficiency, and quality of life for everyone.

# Technologies Include

- Recycling Plastic & Rubber
- Air Conditioning
- Water Purification
- Desalination
- Wind Turbines
- Water Turbines
- Medical
- Health & Wellness
- Agriculture

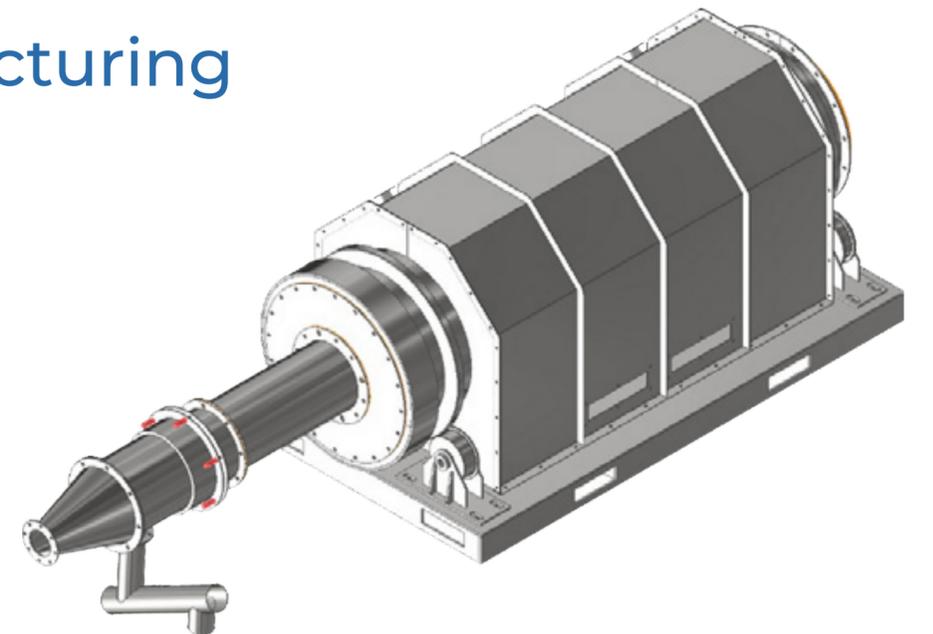

# Tried & Tested Recycling Technology

After 2 years of research and development our recycling technology is the first OST technology that has been launched and is successfully in use.

Our factory is manufacturing new machines to be delivered to OST sites around the world.

**One Small Town  
Recycling Technology**  
Affectionately Called "Ugly Betty"

Our planet is facing a major  
**Pollution Problem**

**Rubber**

**Plastic**

# The Solution

## Unique – Green – Non-Polluting

Our recycling design and I.P. (intellectual property) is unique in the world and can provide a solution for all pollution associated with plastic, rubber, and polystyrene dumping.

The process produces various forms of usable energy products. It is green, non-toxic, and fully recyclable, with zero toxic emissions of any kind.

## Mobile and Adaptable

Our recycling systems are mobile and adaptable to almost any terrain. It can be containerized and implemented almost anywhere.

**ZERO**  
**0%**  
**POLLUTION**

**ZERO**  
**0%**  
**EMISSIONS**

# Technologies to be Funded

## Recycling

Advanced methods for recycling plastic, rubber, and polystyrene, already in production, offering zero toxic emissions and producing usable energy products.

## Energy Solutions

Including air conditioning, wind turbines, water turbines and other energy generating innovation

## Agriculture

Including organic soil stimulants, soil regenerative treatments, specialized non-GMO seed treatment, large scale organic and non-GMO seed cultivation, seed banks, and other agricultural tools.

## Water Management

Non-destructive water purification and desalination.

## Health & Wellness

Innovative technologies to manage and prevent disease and improve general health all round. Such as stable Oxygenated water products, in numerous forms, for various applications. Ozone treatment technology, and cultivation of wide range of organic medicinal plants for a wide variety of applications.

# Crowd Funding Structure for the Technology Token

**Total Amount Issued**  
**100 million**  
OST Technology Tokens

## Token Allocation

**\$1 per token**

Each donation of \$1 USD will grant the donor one OST Technology Token.

## OST Platform

**Safe & Secure**

All transactions occur on a secure, user-friendly digital platform where donors can manage their tokens.

## Token Alignment

Donors can align their Technology Tokens with specific new technology projects, when such new projects are launched.

## Rewards for Donors

30% of the annual rewards from each individual technology is distributed proportionately, as a reward to the donors who aligned their tokens with that specific technology.

# Benefits of the Technology Token

## Technology Token

The Technology Token is a generic token that represents a basket of existing and new OST technologies.

## Token Alignment

Donors can align their generic technology tokens with any of the new technologies as they become available.

## Private Transactions

All of this takes place in your private OST digital wallet.

## Technology Funding

This is Crowd Funding with a real benefit.

# Benefits for Donors

All donors can benefit from the rewards of the many new technologies developed by One Small Town, as the technologies mature and become commercially successful.

## Rewards & Benefits

30% of the annual benefits from each of the individual technologies is distributed proportionately as a rewards to the donors who aligned their tokens with that specific technology.

## Environmental & Social Impact

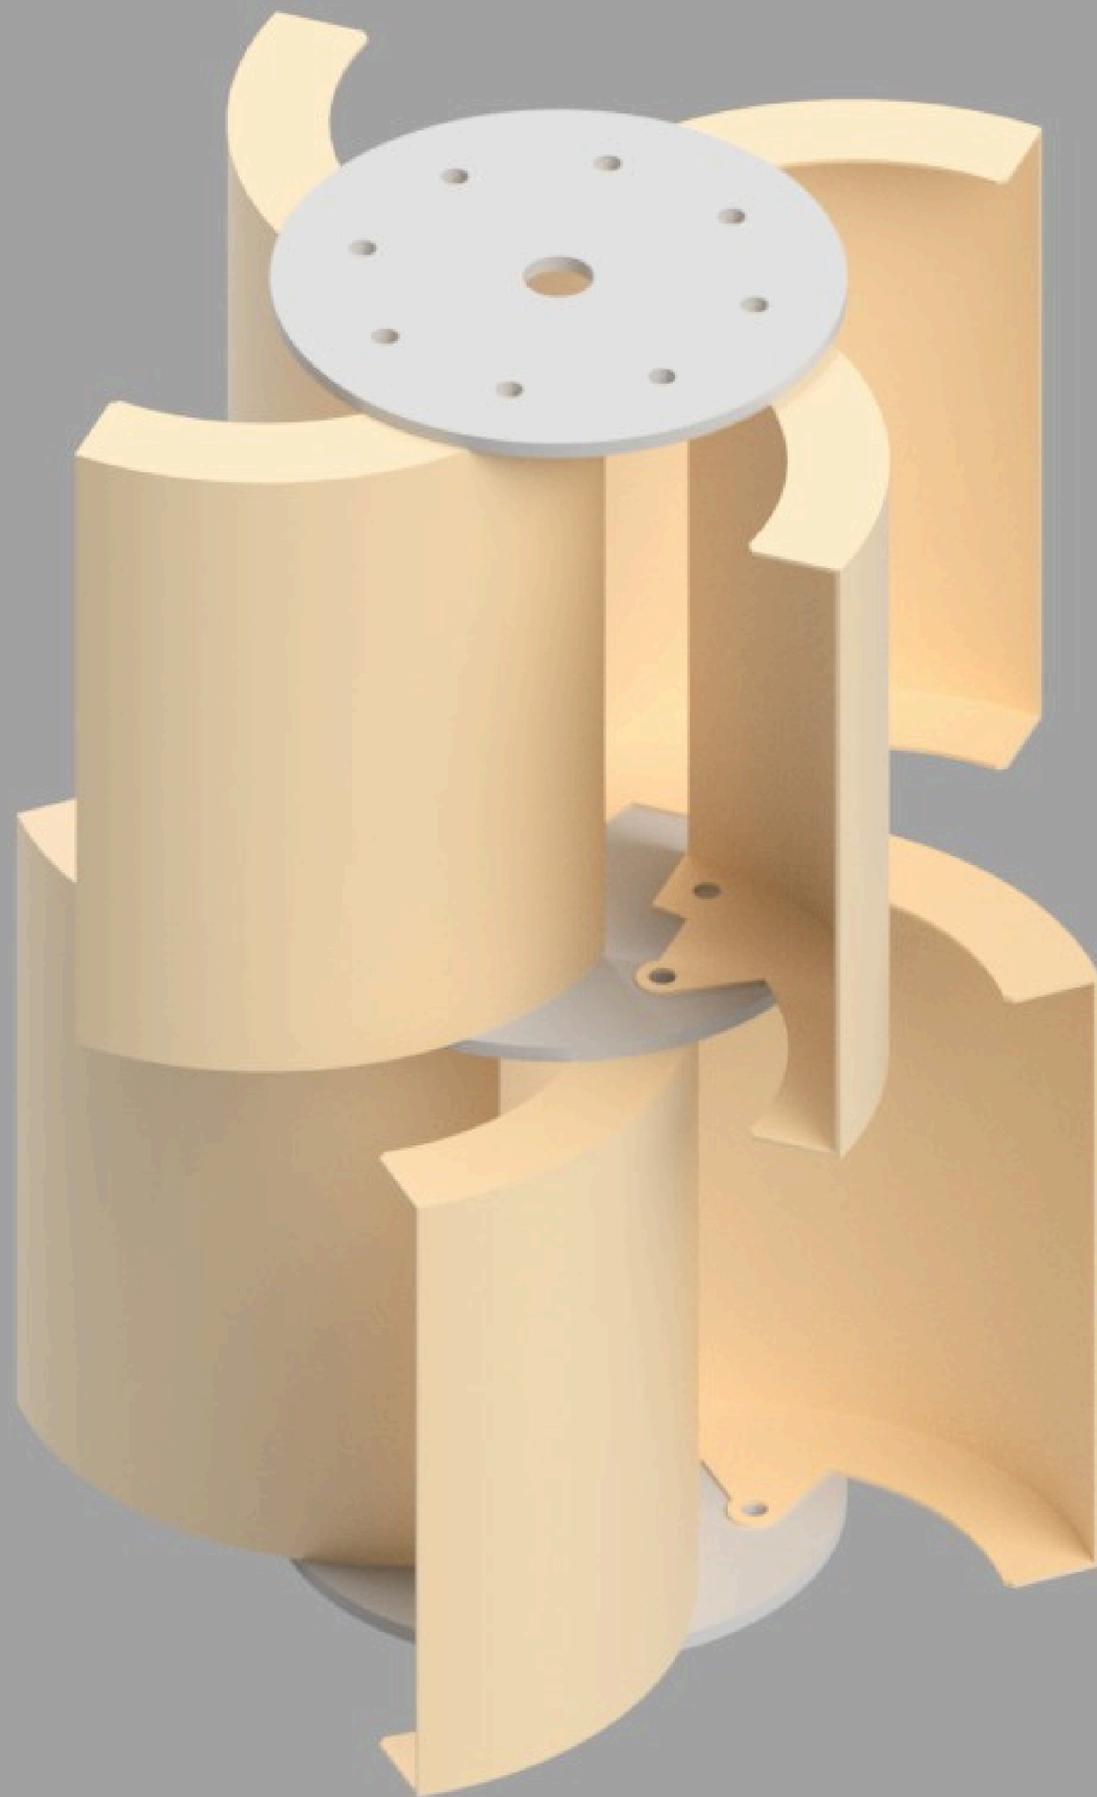

Contribute to sustainable solutions that address critical global challenges.

## Membership & Token Utility

Donors receive a private membership NFT (Non-Fungible Technology Token) providing access to the OST ecosystem, including the ability to trade, sell, or gift their tokens.

Transparency in the performance of the various technologies will be ensured through updates on the OST platform, in accordance with Generally Accepted Accounting Principles (GAAP) reporting structures.

## Token Flexibility and Trade

You can sell, trade, exchange, or gift any of your tokens at any time to a willing buyer.

The process is based on a willing seller and willing buyer principle. The buyer must be registered as a ONE SMALL TOWN member with a digital wallet in his/her OST membership account.

## Transparency

Token holders have full transparency on the OST Platform to see how well their chosen technologies are performing.

## Reward Appreciation

As the OST technology bouquet grows and each technology becomes successful and profitable, the rewards of each technology may also increase.

## Privacy

All transactions are strictly private between willing seller and willing buyer on the OST Platform.

# How to Participate

## in the Technology Token Crowd Funding Program

Sign up and log into your OST account on the OST platform.

Update your profile if necessary

Go to MY WALLET and choose Technology Token

Choose your donation amount and payment option

Review and approve OST Technology Token and Reward Agreement

Your Technology Tokens will appear in your OST digital wallet once payment has been processed.

## Further Engagement

- Monitor OST activity on our website from time to time and decide which new technologies you want to align with your generic Technology Tokens.
- Engage with the OST community, trade tokens, or hold for long-term.

## Legal & Privacy

- All transactions are private between willing participants on the OST platform.
- Members must be registered and have an OST digital wallet to participate in transactions.

## Conclusion

Join ONE SMALL TOWN in its mission to innovate for a better future. Your donation not only fuels technological breakthroughs, but also potentially offers rewards and benefits to the donors through our unique token system. Together, we can make a significant impact on the world's most pressing issues.
